

COO Declaration Step-by-Step Procedure

Declarations → Certificate of Origin (COO)

1. Document Overview

The Certificate of Origin (COO) declaration workflow is used by authorized users to create, review, save, validate, and submit Certificate of Origin declarations. The workflow is completed across Header & Certificate, Transport Info, Party Info, Items, and Summary.

2. Navigation

Expected navigation path:

Declarations → Certificate of Origin (COO) → + NEW DECLARATION

3. Declaration Workflow Tabs

Tab	Purpose	Navigation
Header & Certificate (H)	Declaration information, outward transport mode, certificate type/details, copies, currency, and supporting certificate information.	First tab / use NEXT to continue.
Transport Info (T)	Outward transport means including flight/voyage details, departure date, discharge port, and country of final destination.	PREVIOUS returns to Header & Certificate; NEXT opens Party Info.
Party Info (P)	Freight Forwarder, Outward Carrier, Declaring Agent, Exporter, Consignee, Manufacturer, UEN, and address details.	PREVIOUS returns to Transport Info; NEXT opens Items.
Items (I)	HS Code, country of origin, description, quantity, value, invoice data, Certificate of Origin item details, and shipping marks.	PREVIOUS returns to Party Info; NEXT opens Summary.
Summary (S)	Final review, number of items, shipment ID, declaration statement, draft saving, validation, and final submission.	PREVIOUS returns to Items; NEXT is not applicable on the final tab.

4. Navigation Button Notes

Control	Action	Important Note
PREVIOUS	Moves to the immediately preceding COO declaration tab.	Use to review or correct earlier information. It does not submit the declaration.
NEXT	Moves to the immediately following COO declaration tab.	Complete mandatory fields required by the current stage before proceeding where validation is enforced.
SAVE DRAFT	Saves the current COO declaration without final submission.	A successful save is confirmed by a Draft Saved notification.
SUBMIT DECLARATION	Performs final validation and submits the COO declaration.	Use only after reviewing the Summary and confirming the

		declaration statement.
DRAFT COO	Downloads or generates the available draft COO document for the current declaration.	Availability depends on the current declaration state and system behavior.
COO DETAILS	Provides COO details when the function is enabled for the current declaration state.	The control may remain unavailable until applicable processing requirements are met.
EXIT DECLARATION	Leaves the declaration entry screen.	Save required work before exiting when necessary.

5. Validation Requirements

- All fields marked with * should be treated as mandatory.
- Mandatory declaration information should not accept blank or whitespace-only values where text input is required.
- The Declaration Indicator must be confirmed before final submission.
- Certificate Type and applicable certificate details must be completed as required by the declaration scenario.
- Outward Transport Mode and corresponding transport data must be completed.
- Required exporter and consignee information, including addresses, must be provided.
- Invalid, incomplete, or inconsistent data must prevent successful final submission.
- Validation messages should clearly identify the missing or invalid field or section.
- SAVE DRAFT saves the current declaration without final submission and should display a Draft Saved confirmation.
- SUBMIT DECLARATION performs final validation before submission.
- If validation fails, the declaration remains available for correction and is not treated as successfully submitted.
- After successful submission, the declaration should appear in COO Declaration Management with the appropriate status.

6. Suggested Certificate of Origin Declaration Flow

1. Open Declarations → Certificate of Origin (COO).
2. Review the existing COO declaration list or use the available filters to locate a declaration.
3. Select + NEW DECLARATION to create a new Certificate of Origin declaration.
4. Complete Header & Certificate information, including Outward Transport Mode, CO Type, certificate detail type(s), and other applicable certificate information.
5. Use NEXT to proceed through Transport Info, Party Info, Items, and Summary. Use PREVIOUS whenever earlier information must be reviewed or corrected.
6. Enter and verify outward transport details, parties, exporter/consignee data, item information, and Certificate of Origin item details.
7. Use SAVE DRAFT when the declaration must be stored without final submission and verify the Draft Saved confirmation.
8. On Summary, review the number of items and declaration indicator.
9. Select SUBMIT DECLARATION only after confirming that all required information is complete and correct.
10. If validation fails, correct the fields listed in the validation message and submit again.

11. After successful submission, verify the confirmation notification and confirm that the declaration appears in COO Declaration Management with status SUB or the appropriate resulting status.

Appendix A – UI Reference

Step 1: Open COO Declaration Management

From the left navigation menu, expand Declarations and select Certificate of Origin (COO). The COO Declaration Management page displays existing declarations, filters, status information, certificate numbers, row actions, and declaration-level controls. Select + NEW DECLARATION to begin a new COO declaration.

The screenshot displays the 'COO Declaration Management' interface. The left sidebar contains a navigation menu with the following items: Dashboard, Status List, Declarations (expanded), In-Payment (IPT), In-Non-Payment (INP), Transshipment (TNP), Outward (OUT), Certificate of Origin (COO), and Reports. The main content area is titled 'COO Declaration Management' and includes a sub-header 'Manage Certificate of Origin TradeNet declarations'. Above the table are several action buttons: REFRESH, CUSTOM COLUMN, STATUS LIST, DOWNLOAD TEMPLATE, and EXCEL UPLOAD. The table lists 12 declarations with the following data:

Job ID	Message Ref	Message Type	Seq No	Created By	Status	Certificate No.	Created At	Declarant ID	Declarant Name	Prev Per
9699	TDX2609160012	COODEC	202535359H202609161011	ARAVINTH	DRF	-	16-09-2026	S8562791J	NAMASIVAYAM GUNESPARAN	-

At the bottom of the table, there is a pagination control showing 'Declarations per page 10' and a status bar indicating '1 - 10 of 784 Declarations'.

Figure 1. COO Declaration Management - Add New Declaration

Step 2: Start a New COO Declaration

The system opens the declaration entry page at Header & Certificate (H). Complete the mandatory declaration information, including Outward Transport Mode, CO Type, Certificate Detail #1 Type, number of copies where applicable, currency, certificate additional information, and transport details required by the selected certificate scenario.

Step 4: Review Detailed Validation Messages

The detailed validation panel lists the missing required information that must be corrected before submission. The example identifies requirements such as Declaration Indicator, Application Product Type, Certificate Type, Outward Transport Mode, Departure Date, Discharge Port, Country of Final Destination, Exporter ID, Exporter Name, Exporter Address, Consignee Name, and Consignee Address.

The screenshot shows a web browser window with the URL `ec2-18-141-176-151.ap-southeast-1.compute.amazonaws.com/declarations/coo/edit/9717`. The page is titled "Tradenix" and displays a form for editing a COO Declaration. On the left, a sidebar shows the declarant's details: GUNESPARAN, Declarant Code S8562791J, Declarant Phone 81189066, Created At 16-09-2026 19:17, Created By kalai, Updated At 16-09-2026 19:18, and Updated By kalai. The main form area has a "Declaration Indicator" section with a "Shipment ID" field. Below this, a red box contains a declaration statement: ☐ We declare that all particulars in this application are true and correct. At the bottom right of the form, there are buttons for "< PREVIOUS", "NEXT >", and "SAVE DRAFT". A large red box at the bottom of the page indicates a "Validation Failed" message. The message states: "Please fill in all required fields before submitting:" followed by a list of required fields: Declaration Indicator, Application Product Type, Certificate Type, Outward Transport Mode, Departure Date, Discharge Port, Country of Final Destination, Exporter ID, Exporter Name, Exporter Address, Consignee Name, and Consignee Address. It also includes a note: "Please check all tabs for complete the required fields marked in red." In the bottom right corner of the page, there is a link to "Activate Wi" and a button to "Go to Settings".

Step 5: Complete Transport Information

Select Transport Info (T) or use NEXT from Header & Certificate. Enter the applicable outward transport information. The example includes Flight Number, Departure Date, Discharge Port, Country of Final Destination, and optional Aircraft Registration Number.

The screenshot shows the 'Edit Declaration' page in the Tradenix system. The browser address bar indicates the URL: `ec2-18-141-176-151.ap-southeast-1.compute.amazonaws.com/declarations/coo/edit/9718`. The page title is 'COO Declarations / Edit Declaration'. The left sidebar contains 'Job Info' with details: Message Reference (TDX2609160031), URN ID (202535359H), Sequence Number (1030), Declarant Name (NAMASIVAYAM GUNESPARAN), Declarant Code (S8562791J), Declarant Phone (81189066), Created At (16-09-2026 19:21), Created By (kalai), Updated At (16-09-2026 19:21), and Updated By (kalai). The main content area has tabs: Header & Certificate (H), Transport Info (T), Party Info (P), Items (I), and Summary (S). The 'Transport Info (T)' tab is active, showing the 'Outward Transport Means' section. This section contains fields for Flight Number (QWERTY123), Aircraft Registration Number (empty), Departure Date (13/05/2026), Discharge Port (IDJKT), and Country of Final Destination (ID). There are buttons for 'DRAFT COO' and 'COO DETAIL' in the top right. A 'PREVIOUS' button is at the bottom right. A footer link 'Activate W Go to Settings' is visible.

Step 7: Complete Item Information

Select Items (I) or use NEXT from Party Info. Add the required item details including HS Code, country of origin, description, currency, quantity, UOM, item value, and Certificate of Origin item details such as certificate quantity, manufacturing cost date, invoice number/date, origin criteria, content percent, and certificate item description.

The screenshot displays the Tradenix COO Declaration system interface. The top navigation bar includes 'COO Declarations / Edit Declaration' and a 'DRAFT COO' button. The left sidebar shows 'Job Info' with details like Message Reference, URN ID, and Declarant Name. The main area is divided into several sections:

- Item Details:** Contains fields for S No. (1), HS Code (39073090), COO (SG), Description (EPOXIDE RESINS IN OTHER PRIMARY FORMS), HS Type, Duty Type, HS CA, Currency (SGD), and Exchange Rate (1).
- Item Quantity & Values:** Includes HS Quantity (1.0000), UOM (TNE), Item Value (1000.00), and Item OF/FOB Value (SGD).
- Shipping Marks:** A checkbox labeled 'Shipping Marks' with a note 'Check the box to add shipping marks'.
- Certificate of Origin (CO):** A section with a 'COPY ITEM HS DETAIL' button, containing fields for Certificate Quantity (1.0000), UOM (TNE), Certificate Item Value (1000.00), Manufacturing Cost Date (20/02/2026), Item Invoice Number (O/WER123), Item Invoice Date (19/10/2022), HS Code, Content Percent (79), and Certificate Item Description (EPOXIDE RESINS IN OTHER PRIMARY FORMS).
- Items Summary:** A table summarizing the item details.

ITEM NO	HS CODE	DESCRIPTION	COO	QUANTITY	UOM	CURRENCY	ITEM VALUE	OF/FOB	GST
1	39073090	EPOXIDE RESINS IN OTHER PRIMARY FORMS	SG	1	TNE	SGD	1000	1,000.00	0.00

Items per page: 10 | 1 - 10 of 0 items

Step 10: Validate and Submit the COO Declaration

When all required information is complete, select SUBMIT DECLARATION from Summary. After successful submission, the system displays a Declaration Submitted confirmation and returns to COO Declaration Management, where the submitted declaration is shown with status SUB.

The screenshot displays the Tradenix COO Declaration Management interface. The left sidebar contains navigation links: Dashboard, Status List, Declarations, and Reports. The main content area is titled "COO Declaration Management" and includes a sub-header "Manage Certificate of Origin TradeNet declarations". Above the table are buttons for REFRESH, CUSTOM COLUMN, STATUS LIST, DOWNLOAD TEMPLATE, and EXCEL UPLOAD. A table lists declarations with columns: Job ID, Message Ref, Message Type, Seq No, Created By, Status, Certificate No., Created At, Declarant ID, Declarant Name, and Previous Declaration Number. The table shows 10 declarations, with the first one (Job ID 9718) having a status of SUB. A green notification box in the top right corner indicates "Draft Saved" and "Declaration Submitted".
