

# Tradenix – INP Declaration Step-by-Step Procedure

*Declarations → In-Non-Payment (INP)*

## 1. Page Overview

The In-Non-Payment (INP) declaration workflow is used by authorized users to create, review, save, validate, and submit INP declarations. The declaration is completed across a sequence of tabs: Shipment Info, Transport Info, Party Info, Invoice Info, Items, CPC, and Summary.

## 2. Navigation

**Expected navigation path:**

Declarations → In-Non-Payment (INP) → + NEW DECLARATION

## 3. Declaration Workflow Tabs

| Tab                | Purpose                                                                                                   | Navigation                                                        |
|--------------------|-----------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------|
| Shipment Info (S)  | Declaration and shipment-level information.                                                               | First tab; use NEXT to continue.                                  |
| Transport Info (T) | Cargo, transport means, arrival, port, and container information.                                         | PREVIOUS returns to Shipment Info; NEXT opens Party Info.         |
| Party Info (P)     | Importer, carrier, freight forwarder, and declaring agent details.                                        | PREVIOUS returns to Transport Info; NEXT opens Invoice Info.      |
| Invoice Info (V)   | Invoice, supplier/manufacturer, charges, CIF, duty, tax, and GST information.                             | PREVIOUS returns to Party Info; NEXT opens Items.                 |
| Items (I)          | Item, HS code, quantity, value, CASC, tariff, shipping mark, and GST details.                             | PREVIOUS returns to Invoice Info; NEXT opens CPC.                 |
| CPC (C)            | CPC-related declaration options.                                                                          | PREVIOUS returns to Items; NEXT opens Summary.                    |
| Summary (Y)        | Final review, declaration totals, remarks, declaration statement, draft save, validation, and submission. | PREVIOUS returns to CPC; NEXT is not applicable on the final tab. |

## 4. Navigation Button Notes

| Control    | Action                                                       | Important Note                                                                                                                |
|------------|--------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------|
| PREVIOUS   | Moves the user to the immediately preceding declaration tab. | Use this button to review or correct information already entered. It does not submit the declaration.                         |
| NEXT       | Moves the user to the immediately following declaration tab. | Complete the mandatory fields required on the current tab before proceeding. Previously entered data should remain available. |
| SAVE DRAFT | Saves the current INP declaration without final submission.  | A successful save is confirmed by a Draft Saved notification. Saving a draft is not the same as submitting the declaration.   |

|                    |                                                                               |                                                                                       |
|--------------------|-------------------------------------------------------------------------------|---------------------------------------------------------------------------------------|
| SUBMIT DECLARATION | Performs final validation and submits the declaration when validation passes. | Use only after reviewing the Summary and confirming all required declaration details. |
|--------------------|-------------------------------------------------------------------------------|---------------------------------------------------------------------------------------|

## 5. Validation Requirements

- All fields marked with \* should be treated as mandatory.
- Mandatory declaration fields should not accept blank or whitespace-only values where text input is required.
- The required Shipment Info, Transport Info, Party Info, Invoice Info, Items, CPC, and Summary information should be completed according to the selected declaration type.
- PREVIOUS should return to the immediately preceding declaration tab without submitting the declaration.
- NEXT should move to the immediately following declaration tab and should preserve information already entered on previous tabs.
- Invalid, incomplete, or inconsistent declaration data should prevent successful final submission.
- Validation messages should clearly identify the field or section requiring correction.
- If Declaration Type is missing, the system should prevent the related operation and display a clear validation error.
- SAVE DRAFT should save the current declaration without final submission and display a clear Draft Saved confirmation message when successful.
- SUBMIT DECLARATION should perform final validation before submission.
- If validation fails, the declaration should remain available for correction and should not be treated as successfully submitted.
- When multiple mandatory fields are missing, the application may display a detailed validation list so the user can correct each required field.
- Successful validation and submission should display clear confirmation notifications and update the declaration status in the INP Declaration Management list.

## 6. Suggested In-Non-Payment Declaration Management Flow

1. Open Declarations → In-Non-Payment (INP).
2. Review the existing INP declaration list or use the available filters to locate a declaration.
3. Select + NEW DECLARATION to create a new In-Non-Payment declaration.
4. Complete the Shipment Info section and enter all mandatory declaration and shipment details.
5. Use NEXT to proceed through Transport Info, Party Info, Invoice Info, Items, CPC, and Summary. Use PREVIOUS whenever information on an earlier tab must be reviewed or corrected.
6. Enter and verify the required transport, party, invoice, item, CPC, and other applicable declaration information.
7. Use SAVE DRAFT when the declaration must be saved without final submission and verify the Draft Saved notification.
8. Open the Summary page and review the declaration totals, importer details, shipment information, remarks, and declaration statement.
9. Select SUBMIT DECLARATION only after confirming that all required information is complete and correct.
10. If validation fails, review the validation message or detailed error list and return to the relevant tabs to correct the missing or invalid information.
11. Repeat validation after the required corrections are completed.
12. After successful validation and submission, verify the Validation Passed and Declaration Submitted notifications and confirm that the declaration appears in the INP Declaration Management list with the appropriate status.

## Appendix A – UI Reference

### Step 1: Open INP Declaration Management

From the left navigation menu, expand Declarations and select In-Non-Payment (INP). The INP Declaration Management page displays existing INP declarations, filters, declaration statuses, row-level actions, and list-level controls. Select + NEW DECLARATION to create a new INP declaration.

The screenshot displays the 'INP Declaration Management' interface. On the left is a navigation menu with options: Dashboard, Status List, Declarations (expanded), In-Payment (IPT), In-Non-Payment (INP), Transshipment (TNP), Outward (OUT), Certificate of Origin (C...), and Reports. The main content area is titled 'INP Declaration Management' and includes a subtitle 'Manage In-non-Payment TradeNet declarations'. Above the table are controls: REFRESH, INPUPD, CUSTOM COLUMN, STATUS LIST, DOWNLOAD TEMPLATE, EXCEL UPLOAD, and a prominent '+ NEW DECLARATION' button. The table lists 10 declarations with various statuses like DRF, UPD, and PMT. At the bottom, it shows '1 - 10 of 1082 Declarations' and 'Page 1 of 109'.

| Job ID | Message Ref   | Declaration Type | Message Type | Seq No                 | Created By  | Status | Permit No.  | Created At       | Declarant ID | Dec | Actions     |

Figure 1. INP Declaration Management - Add New Declaration

## Step 2: Start a New INP Declaration

The system opens the INP declaration entry page at Shipment Info (S). Complete the mandatory declaration and shipment fields shown on the page, including Declaration Type, Cargo Type, Release Location, Receipt Location, and other applicable information.

**Note:** Shipment Info is the first declaration tab. Use NEXT to continue to Transport Info after completing the required fields.

The screenshot displays the Tradenix INP Declaration - Shipment Info page. The browser address bar shows the URL: [ec2-18-141-176-151.ap-southeast-1.compute.amazonaws.com/declarations/inp/edit/9702](https://ec2-18-141-176-151.ap-southeast-1.compute.amazonaws.com/declarations/inp/edit/9702). The Tradenix logo is in the top left corner. The page title is "INP Declarations / Edit Declaration". A red "EXIT DECLARATION" button is in the top right corner. The main form is divided into several sections:

- Job Info** (Sidebar):
  - Message Reference: TDX2609160015
  - URN ID: 202535359H
  - Sequence Number: 1014
  - Declarant Name: NAMASIVAYAM GUNESPARAN
  - Declarant Code: S856279IJ
  - Declarant Phone: 81189066
  - Created At: 16-09-2026 18:43
  - Created By: kalai
  - Updated At: 16-09-2026 18:43
  - Updated By: kalai
- Declaration Info** (Main Form):
  - Declaration Type \* (Dropdown menu)
  - Cargo Type \* (Dropdown menu)
  - Release Location \* (Dropdown menu)
  - Receipt Location \* (Dropdown menu)
  - Storage Location (Dropdown menu)
- Prev Permit Number** (Form):
  - Previous Permit Number (Text field)
- Checks** (Form):
  - BG Indicator (Dropdown menu)
  - Blanket Start Date (Date field, DD/MM/YYYY)
  - Supply Indicator (Checkbox)
  - Additional Recipients (Checkbox)
- License** (Form):
  - License (Text field)
- Document** (Form):
  - Document (Text field)

At the bottom right, there is an "Activate Windows" watermark and a navigation bar with buttons: "PREVIOUS", "NEXT", and "SAVE DRAFT".

Figure 2. New INP Declaration - Shipment Info

## Step 3: Complete Shipment Information

Enter or select the required Shipment Info values. Depending on the declaration type, the form may also require Inward Transport Mode, Storage Location, Previous Permit Number, BG Indicator, Blanket Start Date, Supply Indicator, License, Document, and Additional Recipients.

**Note:** Use NEXT to continue from Shipment Info to Transport Info. On later tabs, PREVIOUS can be used to return and correct Shipment Info values.

The screenshot displays the Tradenix INP Declaration form. The browser address bar shows the URL: `ec2-18-141-176-151.ap-southeast-1.compute.amazonaws.com/declarations/inp/edit/9703`. The form is titled "INP Declarations / Edit Declaration" and includes a red "EXIT DECLARATION" button in the top right corner. The left sidebar, labeled "Job Info", contains the following details:

- Message Reference: TDx2609160016
- URN ID: 202535359H
- Sequence Number: 1015
- Declarant Name: NAMASIVAYAM GUNESPARAN
- Declarant Code: S8562791J
- Declarant Phone: 81189066
- Created At: 16-09-2026 18:44
- Created By: kalai
- Updated At: 16-09-2026 18:44
- Updated By: kalai

The main form area has several tabs: "Shipment Info (S)", "Transport Info (T)", "Party Info (P)", "Invoice Info (V)", "Items (I)", "CPC (C)", and "Summary (Y)". The "Shipment Info (S)" tab is active, showing the following sections:

- Declaration Info:** Includes fields for Declaration Type (20 - APS), Cargo Type (5 - Other non-containerized), Inward Transport Mode (4 - Air), Release Location (CZ), Receipt Location (ME), and Storage Location (MAJOR EXPORTER SCHEME).
- Prev Permit Number:** Includes a field for Previous Permit Number.
- Checks:** Includes fields for BG Indicator, Blanket Start Date (DD/MM/YYYY), and a checkbox for Supply Indicator.
- Additional Recipients:** Includes a checkbox for Additional Recipients.
- License and Document:** Includes checkboxes for License and Document.

An "Activate Windows" watermark is visible in the bottom right corner of the form.

Figure 3. Completed Shipment Information

## Step 4: Complete Transport Information

Select Transport Info (T) or use NEXT from Shipment Info. Enter cargo details such as Total Package, package UOM, Gross Weight, and weight UOM. Complete applicable inward transport details including Arrival Date, Loading Port, Port Name, Inward Flight Number, aircraft registration number, Inward Master Air Waybill, and container details where required.

**Note:** PREVIOUS returns to Shipment Info. NEXT proceeds to Party Info.

Figure 5. Party Information

## Step 6: Complete Invoice Information

Select Invoice Info (V) or use NEXT from Party Info. Enter the invoice number, invoice date, term type, supplier/manufacturer details, currency, invoice amount, and other applicable charges. Review the calculated CIF, duty, tax, and GST values displayed by the system.

**Note:** PREVIOUS returns to Party Info. NEXT proceeds to Items.

The screenshot shows the Tradenix INP Declaration interface. The top navigation bar includes links for Shipment Info (S), Transport Info (T), Party Info (P), Invoice Info (V), Items (I), CPC (C), and Summary (Y). The 'Invoice Info (V)' tab is selected. The left sidebar displays 'Job Info' with details such as Message Reference (TDX2609160016), URN ID (202535359H), Sequence Number (1015), and Declarant Name (NAMASIVAYAM GUNESPARAN). The main form area is titled 'Invoice' and contains the following sections:

- Invoice Details:** Includes fields for S No (1), Invoice Number (001), Invoice Date (16/04/2026), and Term Type (CIF).
- Supplier / Manufacturer Party:** Includes a Name field (ADATA) and a UEN field.
- Invoice Charge Table:** A table with columns: Item, Charge %, Currency, Exchange Rate, Amount, and Amount (\$\$). The table lists various charges and their calculated amounts.

| Item                                                 | Charge % | Currency | Exchange Rate | Amount   | Amount (\$\$) |
|------------------------------------------------------|----------|----------|---------------|----------|---------------|
| A. Total Invoice                                     | -        | SGD      | 1.000000      | 55000.00 | 55,000.00     |
| B. Other Taxable Charge                              | 0.0000 % |          | 0.000000      | 0.00     | 0.00          |
| D. Cost and Freight Charge (A+B+C)                   |          |          |               |          | 55,000.00     |
| F. Cost, Insurance and Freight (D+E)                 |          |          |               |          | 55,000.00     |
| G. Excise Duty                                       |          |          |               |          | -             |
| H. Customs Duty                                      |          |          |               |          | -             |
| I. Other Tax                                         |          |          |               |          | -             |
| J. Cost, Insurance and Freight, Duty & Tax (F+G+H+I) |          |          |               |          | 55,000.00     |
| K. GST (% of F)                                      |          | 9%       |               |          | 4,950.00      |

At the bottom right, there is an 'Activate Windows' watermark and navigation buttons: Go to PREVIOUS, NEXT, and SAVE DRAFT.

Figure 6. Invoice Information

## Step 7: Complete Item Information

Select Items (I) or use NEXT from Invoice Info. Add the required item details such as invoice reference, HAWB or shipment reference, HS Code, description, brand, country of origin, quantity, UOM, item value, currency, and applicable CASC, shipping mark, tariff, or GST information.

**Note:** PREVIOUS returns to Invoice Info. NEXT proceeds to CPC.

The screenshot shows the 'Item Information' form in the Amazon TradeLens system. The form is divided into several sections:

- Item Details:** Includes fields for Invoice Number, Invoice Date, Invoice Reference, and Description.
- CASC Details:** Includes fields for Product Code, Quantity, and UOM.
- Item Quantity:** Includes fields for Quantity and UOM.
- Item Values:** Includes fields for Item Value, Unit Price, and Total Value.
- Item GST Calculation:** Includes a table for GST calculation.
- Item Summary:** Includes a table for item summary.

The 'Item Summary' table shows the following data:

| ITEM ID | HS CODE  | DESCRIPTION                                                       | QTY | QUANTITY | UOM | CURRENCY | ITEM VALUE | CHARGE    | GST          |
|---------|----------|-------------------------------------------------------------------|-----|----------|-----|----------|------------|-----------|--------------|

Figure 7. Item Information

## Step 8: Complete CPC Information

Select CPC (C) or use NEXT from Items. Select the applicable CPC-related options, such as AEO, CWC, SEASTORE, STS, STS & CWC, International Permit Exchange, CNB, or Deferred Printing of CO.

**Note:** PREVIOUS returns to Items. NEXT proceeds to Summary.

The screenshot displays the Tradenix INP Declaration interface at Step 8: Complete CPC Information. The browser address bar shows the URL: [ec2-18-141-176-151.ap-southeast-1.compute.amazonaws.com/declarations/inp/edit/9703](https://ec2-18-141-176-151.ap-southeast-1.compute.amazonaws.com/declarations/inp/edit/9703). The Tradenix logo is in the top left corner. The main navigation bar includes tabs for Shipment Info (S), Transport Info (T), Party Info (P), Invoice Info (V), Items (I), CPC (C), and Summary (Y). The CPC (C) tab is currently selected. On the left, a 'Job Info' sidebar lists details: Message Reference (TDX2609160016), URN ID (202535359H), Sequence Number (1015), Declarant Name (NAMASIVAYAM GUNESPARAN), Declarant Code (S8562791J), Declarant Phone (81189066), Created At (16-09-2026 18:44), Created By (kalai), Updated At (16-09-2026 18:44), and Updated By (kalai). The main content area contains several checkboxes for CPC-related options: AEO, CWC, SEASTORE, STS, STS & CWC, INTERNATIONAL PERMIT EXCHANGE, CNB, and Deferred Printing of CO. At the bottom right, there are three buttons: PREVIOUS, NEXT, and SAVE DRAFT. An 'EXIT DECLARATION' button is located in the top right corner. A Windows watermark 'Activate Windows' is visible in the bottom right corner of the browser window.

Figure 8. CPC Information

## Step 9: Review the Declaration Summary

Select Summary (Y) or use NEXT from CPC. Review the declaration totals, number of invoices and items, invoice and item amounts, CIF/FOB values, GST, customs duty, excise duty, other tax, total amount payable, importer details, package details, gross weight, item quantity totals, HAWB number, and declaration references. Enter remarks where required and confirm the declaration statement before final submission.

**Note: PREVIOUS returns to CPC. Summary is the final workflow tab; review all values before using SAVE DRAFT or SUBMIT DECLARATION.**

The screenshot displays the Tradenix INP Declaration Summary page. The browser address bar shows the URL: [ec2-18-141-176-151.ap-southeast-1.compute.amazonaws.com/declarations/inp/edit/9703](https://ec2-18-141-176-151.ap-southeast-1.compute.amazonaws.com/declarations/inp/edit/9703). The page header includes the Tradenix logo and a user profile icon. The main navigation bar shows tabs for Shipment Info (S), Transport Info (T), Party Info (P), Invoice Info (V), Items (I), CPC (C), and Summary (Y). The Summary (Y) tab is selected.

Navigation buttons: PREVIOUS, NEXT, SAVE DRAFT, SUBMIT DECLARATION.

Activate Windows: Go to Settings to activate Windows.

Figure 9. Declaration Summary

## Step 10: Save the INP Declaration as Draft

Select **SAVE DRAFT** when the declaration must be stored without final submission. After a successful save, the system displays a Draft Saved notification confirming that the INP declaration draft has been saved successfully.

**Note:** **SAVE DRAFT** stores the current declaration without final submission and confirms the save with a **Draft Saved** notification.

The screenshot displays the Tradenix INP Declaration interface. A green notification box in the top right corner states: "Draft Saved. Your INP declaration draft has been saved successfully." The interface includes a sidebar with "Job Info" and a main content area with tabs for "Shipment Info (S)", "Transport Info (T)", "Party Info (P)", "Invoice Info (V)", "Items (I)", "CPC (C)", and "Summary (Y)". The "Summary" tab is active, showing a "Summary" section with fields for "Number of Invoices" (1), "Number of Items" (1), "Sum of Invoice Amount" (55000.00 SGD), "Sum of Item Amount" (55000.00 SGD), "Total Invoice CIF Value" (55000), "Total CIF/FOB Value" (55000), "GST Amount" (4950), "Excise Duty Amount" (0), "Customs Duty Amount" (0), "Other Tax Amount" (0), and "Total Amount Payable" (0). Below this is a "Declaration Summary" section with fields for "Importer (UEN)" (GST DUMMY COMPANY GSTDUMMYCOMPANY (20110715GST)), "Total Package" (10 BUN), "Total Gross Weight" (990 KGM), "Item HS Qty Sum" (1230.000 TPR), "HAWB Number" (ASDF34556), "Cross Reference ID", and "Shipment ID". A checkbox is checked, indicating "We declare that all particulars in this application are true and correct." At the bottom right, there are buttons for "PREVIOUS", "NEXT", "SAVE DRAFT", and "SUBMIT DECLARATION".

Figure 10. Draft Saved Confirmation

## Step 11: Validate and Submit the Declaration

When all required information is complete, select **SUBMIT DECLARATION** from the Summary page. The system validates the declaration before submission. After successful validation and submission, the system displays Validation Passed and Declaration Submitted notifications and returns to the INP Declaration Management list with the updated status.

**Note: SUBMIT DECLARATION performs final validation. When validation passes, the declaration is submitted and confirmation notifications are displayed.**

The screenshot displays the Tradenix INP Declaration Management interface. The left sidebar contains navigation links for Dashboard, Status List, Declarations, and Reports. The main header shows 'INP Declarations' and 'Manage In-non-Payment TradeNet declarations'. A table lists declarations with columns for Job ID, Message Ref, Declaration Type, Message Type, Seq No, Created By, Status, Permit No., Created At, and Declarant ID. The table contains 13 rows of data. Three notifications are displayed on the right: 'Draft Saved', 'Validation Passed', and 'Declaration Submitted', all indicating successful completion of their respective actions. The bottom of the interface shows pagination information: 'Declarations per page 10' and '1 - 10 of 1084 Declarations | Page 1 of 109 | 1 / 109 > > |'.

| Job ID | Message Ref   | Declaration Type | Message Type | Seq No                 | Created By  | Status | Permit No.  | Created At       | Declarant ID | Declarant Name         |

Figure 11. Validation Passed and Declaration Submitted

## Step 12: Validation Error - Missing Declaration Type

If a mandatory field is missing, the system prevents successful submission and displays a validation message. In the example shown, the Declaration Type is missing and the system displays a Validation Error instructing the user to select a Declaration Type before saving.

**Note:** Validation errors must be corrected before the declaration can be successfully processed.

The screenshot displays the Tradenix web application interface for editing an INP Declaration. A red-bordered validation error message is shown in the top right corner, stating: "Validation Error Declaration Type is required. Please select a Declaration Type before saving." The main form is divided into several sections: "Job Info" on the left, "Summary" in the center, and "Remarks" on the right. The "Summary" section contains a table with fields for "Number of Invoices", "Number of Items", "Sum of Invoice Amount", "Sum of Item Amount", "Total Invoice CIF Value", "Total CIF/FOB Value", "GST Amount", "Excise Duty Amount", "Customs Duty Amount", "Other Tax Amount", and "Total Amount Payable". The "Remarks" section has three text areas for "Remarks", "Internal Remarks", and "Customer Remarks". Below the "Summary" section is a "Declaration Summary" section with a table for "Importer (SJEN)" and a table for "Total Package", "Total Gross Weight", "Item HS Qty Sum", "HAWB Number", "Cross Reference ID", and "Shipment ID". At the bottom of the form, there is a checkbox labeled "We declare that all particulars in this application are true and correct." and a "Activate Windows" watermark. The bottom navigation bar includes buttons for "PREVIOUS", "NEXT", "SAVE DRAFT", and "SUBMIT DECLARATION".

| Number of Invoices | Number of Items |
|--------------------|-----------------|
| 1                  | 1               |

| Sum of Invoice Amount | Sum of Item Amount |
|-----------------------|--------------------|
| 0.00                  | 0.00               |

| Total Invoice CIF Value | Total CIF/FOB Value |
|-------------------------|---------------------|
| 0                       | 0                   |

| GST Amount | Excise Duty Amount |
|------------|--------------------|
| 0          | 0                  |

| Customs Duty Amount | Other Tax Amount |
|---------------------|------------------|
| 0                   | 0                |

| Total Amount Payable |
|----------------------|
| 0                    |

| Importer (SJEN) |
|-----------------|
| -- (--)         |

| Total Package | Total Gross Weight | Item HS Qty Sum | HAWB Number | Cross Reference ID | Shipment ID |
|---------------|--------------------|-----------------|-------------|--------------------|-------------|
| 0 --          | 0.000 --           | 0.000 --        | --          |                    |             |

☐ We declare that all particulars in this application are true and correct.

Figure 12. Validation Error - Declaration Type Required

## Step 13: Validation Failed - Required Fields Incomplete

If required declaration information is incomplete, the system displays Validation Failed and instructs the user to fill in all required fields before validation can proceed.

**Note:** A Validation Failed message indicates that required information is still incomplete.

The screenshot displays the Tradenix INP Declaration system interface. The browser address bar shows the URL: [ec2-18-141-176-151.ap-southeast-1.compute.amazonaws.com/declarations/inp/edit/9702](https://ec2-18-141-176-151.ap-southeast-1.compute.amazonaws.com/declarations/inp/edit/9702). The interface includes a sidebar with 'Job Info' and a main content area with tabs for 'Shipment Info (S)', 'Transport Info (T)', 'Party Info (P)', 'Invoice Info (V)', 'Items (I)', 'CPC (C)', and 'Summary (Y)'. The 'Summary' tab is active, showing a 'Summary' section with fields for 'Number of Invoices', 'Number of Items', 'Sum of Invoice Amount', 'Sum of Item Amount', 'Total Invoice CIF Value', 'Total CIF/FOB Value', 'GST Amount', 'Excise Duty Amount', 'Customs Duty Amount', 'Other Tax Amount', and 'Total Amount Payable'. A 'Remarks' section is also present with fields for 'Remarks', 'Internal Remarks', and 'Customer Remarks'. Below the summary is a 'Declaration Summary' section with fields for 'Importer (UEN)', 'Total Package', 'Total Gross Weight', 'Item HS Qty Sum', 'HAWB Number', 'Cross Reference ID', and 'Shipment ID'. A red error message states: 'Validation Failed. Please fill in all required fields before checking validation.' A green success message states: 'Draft Saved. Your INP declaration draft has been saved successfully.' The bottom navigation bar includes buttons for 'PREVIOUS', 'NEXT', 'SAVE DRAFT', and 'SUBMIT DECLARATION'.

Figure 13. Validation Failed - Required Fields Incomplete

## Step 14: Review Detailed Validation Errors

When validation fails, the system may display a detailed list of missing or invalid fields. Review each listed validation item, return to the relevant declaration tabs, correct the required information, and repeat validation before final submission.

**Note:** Use the detailed validation list to identify all missing fields, then navigate back using **PREVIOUS** or the declaration tabs to correct them.

The screenshot displays the Tradenix INP Declaration interface. The browser address bar shows the URL: `ec2-18-141-176-151.ap-southeast-1.compute.amazonaws.com/declarations/inp/edit/9702`. The interface includes a sidebar with 'Job Info' and a main content area with tabs for 'Shipment Info (S)', 'Transport Info (T)', 'Party Info (P)', 'Invoice Info (V)', 'Items (I)', 'CPC (C)', and 'Summary (Y)'. The 'Summary' tab is active, showing a 'Summary' section with fields for 'Number of Invoices' (1), 'Number of Items' (1), 'Sum of Invoice Amount' (0.00), 'Sum of Item Amount' (0.00), 'Total Invoice CIF Value' (0), 'Total CIF/FOB Value' (0), 'GST Amount' (0), 'Excise Duty Amount' (0), 'Customs Duty Amount' (0), 'Other Tax Amount' (0), and 'Total Amount Payable' (0). Below this is a 'Declaration Summary' section with fields for 'Importer (UEN)' (--) and a table with columns: 'Total Package', 'Total Gross Weight', 'Item HS Qty Sum', 'HAWB Number', 'Cross Reference ID', and 'Shipment ID'. The table contains one row with values: '0 --', '0.000 --', '0.000 --', '--', and empty fields for the last two columns. A red error message box in the top right corner states: 'Validation Failed. Please fill in all required fields before checking validation.' A green 'Draft Saved' message box is also visible. At the bottom, there are buttons for 'PREVIOUS', 'NEXT', 'SAVE DRAFT', and 'SUBMIT DECLARATION'.

Figure 14. Detailed Validation Errors
