

Tradenix – TNP Declaration Step-by-Step Procedure

Declarations → Transshipment (TNP)

1. Page Overview

The Transshipment (TNP) declaration workflow is used by authorized users to create, review, save, validate, and submit transshipment declarations. The declaration is completed across Shipment Info, Transport Info, Party Info, Items, CPC, and Summary.

2. Navigation

Expected navigation path:

Declarations → Transshipment (TNP) → + NEW DECLARATION

3. Declaration Workflow Tabs

Tab	Purpose	Navigation
Shipment Info (S)	Declaration and shipment-level information.	First tab; use NEXT to continue.
Transport Info (T)	Cargo, inward/outward transport, port, destination, and container information.	PREVIOUS returns to Shipment Info; NEXT opens Party Info.
Party Info (P)	Carrier, handling agent, declaring agent, consignee, and end-user details.	PREVIOUS returns to Transport Info; NEXT opens Items.
Items (I)	Item, transport references, HS code, packing, quantity, value, CASC, and shipping-mark details.	PREVIOUS returns to Party Info; NEXT opens CPC.
CPC (C)	CPC-related declaration options.	PREVIOUS returns to Items; NEXT opens Summary.
Summary (Y)	Final review, package/weight totals, remarks, declaration statement, save, validation, and submission.	PREVIOUS returns to CPC; NEXT is not applicable on the final tab.

4. Navigation Button Notes

Control	Action	Important Note
PREVIOUS	Moves to the immediately preceding declaration tab.	Use it to review or correct information already entered. It does not submit the declaration.
NEXT	Moves to the immediately following declaration tab.	Complete the mandatory information required on the current tab before proceeding.
SAVE DRAFT	Saves the current TNP declaration without final submission.	A successful save should display a Draft Saved confirmation.
SUBMIT DECLARATION	Performs final validation and submits the declaration when validation passes.	Use only after reviewing Summary and confirming all required details.

5. Validation Requirements

- All fields marked with * should be treated as mandatory.
- Mandatory declaration fields should not accept blank or whitespace-only values where text input is required.
- Declaration Type, Cargo Type, required transport references, Release Location, Receipt Location, package details, gross weight, item information, and declaration confirmation should be completed where applicable.
- PREVIOUS should return to the immediately preceding tab without submitting the declaration.
- NEXT should move to the immediately following tab and should preserve information already entered.
- Invalid, incomplete, or inconsistent declaration data should prevent successful final submission.
- Validation messages should clearly identify the field or section requiring correction.
- If Declaration Type is missing, the system should display a clear Validation Error and prevent the related operation.
- When multiple required fields are missing, the application may display a detailed validation list grouped by section.
- SAVE DRAFT should store the declaration without final submission and display a clear confirmation when successful.
- SUBMIT DECLARATION should perform final validation before submission.
- If validation fails, the declaration should remain available for correction and should not be treated as successfully submitted.
- Successful submission should provide a clear confirmation and update the declaration status in the TNP Declaration Management list.

6. Suggested Transhipment Declaration Management Flow

1. Open Declarations → Transhipment (TNP).
2. Review the existing TNP declaration list or use the available filters to locate a declaration.
3. Select + NEW DECLARATION to create a new transhipment declaration.
4. Complete Shipment Info and enter all mandatory declaration and shipment details.
5. Use NEXT to proceed through Transport Info, Party Info, Items, CPC, and Summary. Use PREVIOUS to return to earlier tabs when corrections are required.
6. Complete inward and outward transport information, including applicable arrival/departure dates, ports, transport modes, destination, and container details.
7. Enter and verify all required party information.
8. Enter and verify the required item details, HS codes, packing information, quantities, UOMs, country of origin, transport references, and related item data.
9. Complete the applicable CPC options.
10. Review the Summary page, including package and weight totals, transport references, remarks, and declaration statement.
11. Use SAVE DRAFT when the declaration must be stored without final submission.
12. Select SUBMIT DECLARATION only after all required information is complete and correct.
13. If validation fails, review the validation message or detailed error list and correct each identified field.
14. After successful submission, verify the confirmation notification and confirm that the declaration appears in the TNP Declaration Management list with the appropriate status.

Appendix A – UI Reference

Step 1: Open TNP Declaration Management

From the left navigation menu, expand Declarations and select Transshipment (TNP). The TNP Declaration Management page displays existing transshipment declarations, filters, statuses, row-level actions, and list-level controls. Select + NEW DECLARATION to create a new TNP declaration.

The screenshot displays the 'TNP Declaration Management' interface. On the left is a navigation menu with options: Dashboard, Status List, Declarations (expanded), In-Payment (IPT), In-Non-Payment (INP), Transshipment (TNP), Outward (OUT), Certificate of Origin (C...), and Reports. The main content area is titled 'TNP Declarations' and 'TNP Declaration Management'. It includes a sub-header 'Manage Transshipment TradeNet declarations' and several action buttons: REFRESH, TNPUPD, CUSTOM COLUMN, STATUS LIST, DOWNLOAD TEMPLATE, EXCEL UPLOAD, and + NEW DECLARATION. Below these is a table of declarations with the following columns: Job ID, Message Ref, Declaration Type, Created By, Status, Permit No., Created At, Seq No, Declarant ID, and Actions. The table contains 12 rows of data, including entries for Job IDs 9707, 9706, 9654, 9653, 9650, 9649, 9633, 9628, 9600, and 9597. The status of each declaration is indicated by a colored pill (e.g., DRF, PMT, REJ, FLD). The bottom of the page shows a pagination control: 'Items per page 10 1 - 10 of 686 declarations'.

Job ID	Message Ref	Declaration Type	Created By	Status	Permit No.	Created At	Seq No	Declarant ID	Actions

Figure 1. TNP Declaration Management - Add New Declaration

Step 2: Start a New TNP Declaration

The system opens the TNP declaration entry page at Shipment Info (S). Complete the mandatory declaration and shipment fields such as Declaration Type, Cargo Type, Inward Transport ID, Release Location, Receipt Location, and other applicable information.

Note: Shipment Info is the first workflow tab. Use NEXT to continue after completing the required fields.

The screenshot shows the Tradenix web application interface for creating a new TNP declaration. The browser address bar shows the URL: `ec2-18-141-176-151.ap-southeast-1.compute.amazonaws.com/declarations/tnp/edit/9712`. The page title is "TNP Declarations / Edit Declaration". A red "EXIT DECLARATION" button is in the top right corner.

The main content area is divided into two sections: "Job Info" on the left and "Declaration Info" on the right. The "Job Info" section contains the following details:

- Message Reference: TDX2609160025
- URN ID: 202535359H
- Sequence Number: 1024
- Declarant Name: NAMASIVAYAM GUNESPARAN
- Declarant Code: S8562791J
- Created At: 16-09-2026 19:03
- Created By: kalai
- Updated At: 16-09-2026 19:03
- Updated By: kalai

The "Declaration Info" section contains the following fields:

- Declaration Type ***: A dropdown menu with a magnifying glass icon.
- Cargo Type ***: A dropdown menu with a magnifying glass icon.
- Inward Transport ID ***: A dropdown menu with a magnifying glass icon.
- Outward Transport ID**: A dropdown menu with a magnifying glass icon.
- Release Location ***: A dropdown menu with a magnifying glass icon.
- Receipt Location ***: A dropdown menu with a magnifying glass icon.
- Storage Location**: A text input field.
- Prev Permit Number**: A text input field with a label "Previous Permit Number".
- Checks**: A section containing a "BG Indicator" dropdown menu and a checkbox for "Additional Recipients".
- License**: A checkbox.
- Document**: A checkbox.

An "Activate Windows" watermark is visible in the bottom right corner of the page.

Figure 2. New TNP Declaration - Shipment Info

Step 3: Validation Error - Missing Declaration Type

If Declaration Type is not selected, the system prevents the related operation and displays a Validation Error indicating that Declaration Type is required.

Note: Correct the Declaration Type before attempting the affected operation again.

The screenshot shows the Tradenix TNP Declaration form. A red validation error message is displayed in the top right corner: "Validation Error Declaration Type is required. Please select a Declaration Type before saving." The form is divided into several sections: "Job Info" on the left, "Summary" in the top center, "Remarks" on the top right, and "Declaration Summary" at the bottom. The "Summary" section includes fields for "Number of Items" (1), "Total CIF/FOB Value" (0.00), "Total Package" (0), "Package UOM" (TNE), "Total Gross Weight" (0.0000), and "Weight UOM" (TNE). The "Remarks" section has three text areas for "Remarks", "Internal Remarks", and "Customer Remarks". The "Declaration Summary" section includes a table with columns for "Total Package", "Total Gross Weight", "Inward Transport", "Outward Transport", "Cross Reference ID", and "Shipment ID". The "Total Package" and "Total Gross Weight" columns are highlighted in yellow. At the bottom right, there are buttons for "PREVIOUS", "NEXT", "SAVE DRAFT", and "SUBMIT DECLARATION".

Message Reference: TDX2609160025

☐ I/We declare that all particulars in this application are true and correct.

PREVIOUS NEXT SAVE DRAFT SUBMIT DECLARATION

Figure 3. Validation Error - Declaration Type Required

Step 4: Validation Failed - Required Fields Incomplete

If required fields are incomplete, the system displays a Validation Failed message and highlights mandatory values that must be completed before submission.

Note: Complete the highlighted mandatory fields before attempting submission.

The screenshot shows the Tradenix TNP Declaration form. The browser address bar indicates the URL: `ec2-18-141-176-151.ap-southeast-1.compute.amazonaws.com/declarations/tnp/edit/9712`. The form is titled "Tradenix" and has a "Draft Saved" notification. A "Validation Failed" message states: "Please fill in all required fields before submitting." The form is divided into several sections:

- Job Info:** Message Reference (TDX2609160025), URN ID (202535359H), Sequence Number (1024), Declarant Name (NAMASI/VAYAM GUNESPARAN), Declarant Code (5856279U), Created At (16-09-2026 19:03), Created By (kalai), Updated At (16-09-2026 19:03), Updated By (kalai).
- Summary:** Number of Items (1), Total CIF/FOB Value (0.00), Total Package * (0.0000), Package UOM * (TNE), Total Gross Weight * (0.0000), Weight UOM * (TNE).
- Remarks:** Remarks (Enter remark...), Internal Remarks (Enter internal remarks...), Customer Remarks (Enter customer remarks...).
- Declaration Summary:** Importer (JURN), -- (--), Total Package (0), Total Gross Weight (0.000 TNE), Inward Transport (--), Outward Transport (--), Cross Reference ID, Shipment ID.

At the bottom, there is a checkbox for "We declare that all particulars in this application are true and correct." and buttons for "PREVIOUS", "NEXT", "SAVE DRAFT", and "SUBMIT DECLARATION".

Figure 4. Validation Failed - Required Fields Incomplete

Step 5: Review Detailed Validation Errors

When validation fails, the system may display a detailed list of missing information grouped by section, including Summary, Transport, Cargo, Item, and other validation errors. Correct each listed field before attempting submission again.

Note: Use the detailed validation list to identify all missing fields and return to the relevant tabs for correction.

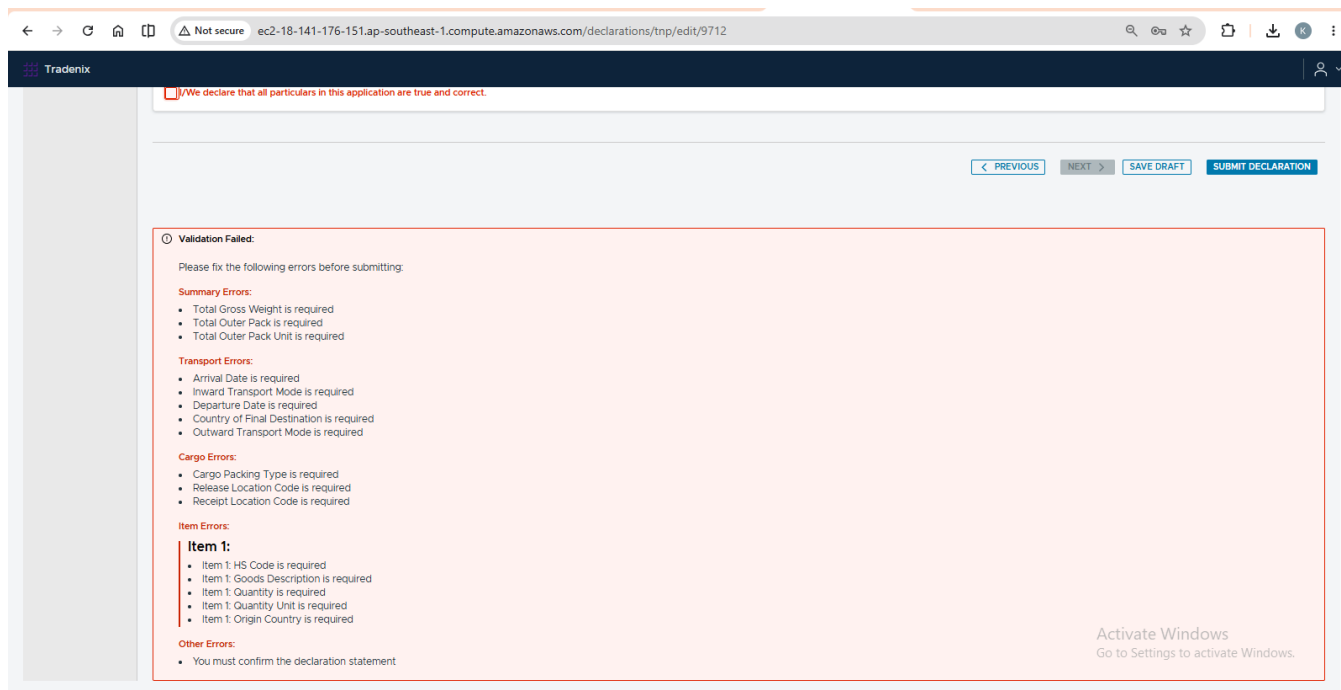

Figure 5. Detailed TNP Validation Errors

Step 6: Complete Shipment Information

Enter the required Shipment Info values for the transshipment declaration. The page may include Declaration Type, Cargo Type, Inward Transport ID, Outward Transport ID, Release Location, Receipt Location, Storage Location, Previous Permit Number, BG Indicator, License, Document, and Additional Recipients.

Note: Use NEXT to continue from Shipment Info to Transport Info.

The screenshot shows the Tradenix TNP Declaration Step-by-Step Procedure, Step 6: Complete Shipment Information. The interface is a web application with a dark blue header and a light gray sidebar. The main content area is white and contains several form sections. The sidebar on the left lists job information: Message Reference TDX2609160027, URN ID 202535359H, Sequence Number 1026, Declarant Name NAMASIVAYAM GUNESPARAN, Declarant Code S856279U, Created At 16-09-2026 19:05, Created By kalai, Updated At 16-09-2026 19:05, and Updated By kalai. The main content area has a top navigation bar with tabs: Shipment Info (S), Transport Info (T), Party Info (P), Items (I), CPC (C), and Summary (Y). The Shipment Info tab is active. The form sections include: Declaration Info (Declaration Type: 70-TT, Cargo Type: 5-Other non-containerized, Inward Transport ID: 1-Sea, Outward Transport ID: 4-Air, Release Location: JZ, Receipt Location: CZ, Storage Location: CHANGI FTZ), Prev Permit Number (Previous Permit Number), Checks (BG Indicator), License, Document, and Additional Recipients. The bottom right corner has an 'Activate Windows' watermark and a 'Go to Settings to activate Windows.' message. The bottom navigation bar has buttons: PREVIOUS, NEXT, and SAVE DRAFT.

Step 8: Complete Party Information

Select Party Info (P) or use NEXT from Transport Info. Enter or verify the parties involved in the transshipment declaration, such as Inward Carrier, Outward Carrier, Handling Agent, Declaring Agent, Consignee, and End User where applicable.

Note: PREVIOUS returns to Transport Info. NEXT proceeds to Items.

The screenshot shows the Tradenix TNP Declaration interface. The browser address bar indicates the URL: `ec2-18-141-176-151.ap-southeast-1.compute.amazonaws.com/declarations/tnp/edit/9714`. The Tradenix logo is in the top left corner. The main navigation bar includes tabs for Shipment Info (S), Transport Info (T), Party Info (P), Items (I), CPC (C), and Summary (Y). The Party Info (P) tab is currently selected. On the left, a 'Job Info' sidebar displays details: Message Reference (TDX2609160027), UEN ID (202535359H), Sequence Number (1026), Declarant Name (NAMASIVAYAM GUNESPARAN), Declarant Code (5856279U), Created At (16-09-2026 19:05), Created By (kalai), Updated At (16-09-2026 19:05), and Updated By (kalai). The main content area is titled 'TNP Declarations / Edit Declaration' and features a red 'EXIT DECLARATION' button. The 'Party Info' section contains a table with columns 'Party Name', 'Name', and 'UEN'. The table lists: Inward Carrier (AB SHIPPING PTE LTD AB SHIPPING PTE LTD, 199201306R), Outward Carrier (CHANGI INTERNATIONAL AIRPORT SERVICES PTE LTD, 197702772D), Handling Agent (CRIMSONLOGIC PTE LTD CUSTOMER SERVICE CENTRE, 198800784N), and Declaring Agent (ADATA PVT LMT, 202535359H). Below the table are sections for 'Consignee' and 'End User', each with a dropdown menu (currently showing '-NA-'), an 'Address' field, a 'Country Code' field, and an 'Other address details' checkbox. At the bottom right, there are buttons for '< PREVIOUS', 'NEXT >', and 'SAVE DRAFT'. A Windows watermark is visible in the bottom right corner.

< PREVIOUS NEXT > SAVE DRAFT

Figure 8. TNP Party Information

Step 9: Complete Item Information

Select Items (I) or use NEXT from Party Info. Enter the required item information, including inward and outward HAWB/HUCR/HBL references, HS Code, description, brand, country of origin, packing details, quantity, UOM, item value, CASC details, tariff and lot identification, and shipping marks as applicable.

Note: PREVIOUS returns to Party Info. NEXT proceeds to CPC.

The screenshot shows the Tradenix TNP Declaration interface. The top navigation bar includes links for Shipments, Transport Info, Party Info, Items, CPC, and Summary. The 'Items' tab is active, showing a list of items with columns for No, Product Code, Quantity, and UOM. The 'Item Details' section is expanded, displaying fields for S No, Inward HAWB/HUCR/HBL Number, Outward HAWB/HUCR/HBL Number, HS Code, HS Type, HS CA, Brand, and CASC. The 'Packing Details' section is also expanded, showing fields for Outer Pack Qty, In Pack Qty, Inner Pack Qty, and Innermost Pack Qty. The 'Item Quantity & value' section is expanded, showing fields for HS Quantity, HS Value, Item Value, and Exchange Rate. The 'CASC Details' section is expanded, showing fields for Product Code, Quantity, UOM, and Description. The 'Tariff & Lot Identification' and 'Shipping Marks' sections are also visible. The bottom of the screen shows a 'Activate Windows' watermark and a 'Go to Settings to activate Windows' message.

Figure 9. TNP Item Information

Step 10: Complete CPC Information

Select CPC (C) or use NEXT from Items. Select the applicable CPC-related options such as AEO, CWC, SEASTORE, STS, STS & CWC, or International Permit Exchange.

Note: PREVIOUS returns to Items. NEXT proceeds to Summary.

The screenshot shows a web browser window with the URL `ec2-18-141-176-151.ap-southeast-1.compute.amazonaws.com/declarations/tnp/edit/9714`. The page is titled "Tradenix" and displays the "TNP Declarations / Edit Declaration" interface. The "CPC (C)" tab is selected in the navigation bar. On the left, the "Job Info" sidebar lists details: Message Reference (TDX2609160027), UTR ID (202535359H), Sequence Number (1026), Declarant Name (NAMASIVAYAM GUNESPARAN), Declarant Code (S8562791J), Created At (16-09-2026 19:05), Created By (kalai), Updated At (16-09-2026 19:05), and Updated By (kalai). The main form area contains checkboxes for AEO, CWC, SEASTORE, STS, STS & CWC, and INTERNATIONAL PERMIT EXCHANGE. At the bottom right, there are buttons for "PREVIOUS", "NEXT", and "SAVE DRAFT". An "EXIT DECLARATION" button is located in the top right corner. A Windows watermark is visible in the bottom right corner of the browser window.

Figure 10. TNP CPC Information

Step 11: Review the Declaration Summary

Select Summary (Y) or use NEXT from CPC. Review the number of items, total CIF/FOB value, total package and package UOM, total gross weight and weight UOM, transport references, remarks, and declaration statement. Confirm that the declaration particulars are true and correct before final submission.

Note: PREVIOUS returns to CPC. Summary is the final tab; review all information before using SAVE DRAFT or SUBMIT DECLARATION.

The screenshot displays the 'Summary' tab of the Tradenix TNP Declaration interface. The browser address bar shows the URL: `ec2-18-141-176-151.ap-southeast-1.compute.amazonaws.com/declarations/tnp/edit/9714`. The page header includes the Tradenix logo and a user profile icon. The main content area is divided into several sections:

- Job Info:** A sidebar on the left containing details such as Message Reference (TDX2609160027), URN ID (202535359H), Sequence Number (1026), Declarant Name (NAMA SIVAYAM GUNESPARAN), Declarant Code (S856279U), Created At (16-09-2026 19:05), Created By (kalai), Updated At (16-09-2026 19:05), and Updated By (kalai).
- Summary:** A central section with the following fields:
 - Number of Items: 2
 - Total CIF/FOB Value: 0.00
 - Total Package: 5 PKG
 - Package UOM: TNE
 - Total Gross Weight: 0.92 TNE
 - Weight UOM: TNE
- Remarks:** A section with three text input areas labeled 'Remarks', 'Internal Remarks', and 'Customer Remarks'.
- Declaration Summary:** A table summarizing the declaration details:

Importer (JEDI)	Total Package	Total Gross Weight	Inward Transport	Outward Transport	Cross Reference ID	Shipment ID
-- (-) --	5 PKG	0.92 TNE	1 20260426	4 20260428		

At the bottom of the page, there is a checkbox labeled 'I/We declare that all particulars in this application are true and correct.' and a set of navigation buttons: PREVIOUS, NEXT, SAVE DRAFT, and SUBMIT DECLARATION. An 'EXIT DECLARATION' button is also present in the top right corner.

Figure 11. TNP Declaration Summary

Step 12: Save and Submit the TNP Declaration

Use SAVE DRAFT when the declaration must be saved without final submission. When all required information is complete, select SUBMIT DECLARATION. After successful processing, the system returns to the TNP Declaration Management page and displays confirmation notifications such as Draft Saved and Declaration Submitted.

Note: SAVE DRAFT stores the declaration without final submission. SUBMIT DECLARATION performs final validation and submission.

The screenshot displays the Tradenix TNP Declaration Management interface. The page title is "TNP Declaration Management" with a subtitle "Manage Transshipment TradeNet declarations". The interface includes a left sidebar with navigation links: Dashboard, Status List, Declarations, and Reports. The main content area features a table of declarations with columns: Job ID, Message Ref, Declaration Type, Created By, Status, Permit No., Created At, Seq No, Declarant ID, Port Code, and Actions. The table lists 12 declarations with various statuses including SUB, DRAFT, PART, REJ, and FLD. Two green notification boxes are overlaid on the top right: "Draft Saved" (Your TNP declaration draft has been saved successfully.) and "Declaration Submitted" (Your TNP declaration has been submitted successfully.). The bottom of the page shows a pagination bar indicating "Items per page 10" and "1 - 10 of 688 declarations".
