

IPT Declaration

1. Page Overview

The In-Payment (IPT) declaration workflow is used by authorized users to create, review, save, validate, and submit IPT declarations. The declaration is completed across a sequence of tabs: Shipment Info, Transport Info, Party Info, Invoice Info, Items, CPC, and Summary.

2. Navigation

Expected navigation path:

Declarations → In-Payment (IPT) → + NEW DECLARATION

3. Declaration Workflow Tabs

Tab	Purpose	Navigation
Shipment Info (S)	Declaration and shipment-level information.	First tab / use NEXT to continue.
Transport Info (T)	Cargo, transport means, arrival, port, and container information.	PREVIOUS returns to Shipment Info; NEXT opens Party Info.
Party Info (P)	Importer, carrier, forwarder, declaring agent, and claimant details.	PREVIOUS returns to Transport Info; NEXT opens Invoice Info.
Invoice Info (V)	Invoice, supplier/manufacturer, currency, charges, duties, and GST.	PREVIOUS returns to Party Info; NEXT opens Items.
Items (I)	Item, HS code, quantity, value, CASC, shipping mark, tariff, and GST details.	PREVIOUS returns to Invoice Info; NEXT opens CPC.
CPC (C)	CPC-related declaration options.	PREVIOUS returns to Items; NEXT opens Summary.
Summary (Y)	Final declaration review, remarks, totals, and submission.	PREVIOUS returns to CPC; NEXT is not applicable at the final tab.

4. Navigation Button Notes

Control	Action	Important Note
PREVIOUS	Moves the user to the immediately preceding declaration tab. It is used to review or correct information already entered. Using PREVIOUS does not submit the declaration.	Use this button when information on an earlier tab needs to be reviewed or corrected.
NEXT	Moves the user to the immediately following declaration tab. Before moving forward, complete the mandatory fields required by the current tab. Data already entered	Use this button to proceed in sequence after the current tab has been completed.

	should remain available while navigating through the declaration workflow.	
SAVE DRAFT	Saves the current declaration without final submission so the user can continue or revise it later. A successful save is confirmed by a Draft Saved notification.	Saving a draft is not the same as submitting the declaration.
SUBMIT DECLARATION	Available on the Summary stage for final processing. The system validates the declaration and, when validation passes, submits it. Successful validation and submission are confirmed by notifications.	Submission should be performed only after reviewing the Summary and confirming the declaration details.

5. Validation Requirements

- All fields marked with * should be treated as mandatory.
- Mandatory declaration information should not accept blank or whitespace-only values where text input is required.
- The user should complete the required fields on the current tab before proceeding when the application enforces tab-level validation.
- PREVIOUS should return to the immediately preceding declaration tab without submitting the declaration.
- NEXT should move to the immediately following declaration tab and should preserve information already entered on previous tabs.
- Invalid, incomplete, or inconsistent declaration data should prevent successful final submission.
- Validation messages should be displayed clearly and should identify the field or section that requires correction.
- SAVE DRAFT should save the current declaration without final submission and should display a clear Draft Saved confirmation message.
- SUBMIT DECLARATION should perform final validation before the declaration is submitted.
- If validation fails, the declaration should remain available for correction and should not be treated as successfully submitted.
- Successful validation and submission should provide clear confirmation notifications to the user.
- After successful submission, the declaration should be visible in the IPT Declaration Management list with the appropriate status.

6. Suggested In-Payment Declaration Management Flow

1. Open Declarations → In-Payment (IPT).
2. Review the existing IPT declaration list or use the available filters to locate a declaration.
3. Select + NEW DECLARATION to create a new In-Payment declaration.
4. Complete the Shipment Info section and enter all mandatory declaration and shipment details.
5. Use NEXT to proceed through Transport Info, Party Info, Invoice Info, Items, CPC, and Summary. Use PREVIOUS whenever information on an earlier tab must be reviewed or corrected.
6. Enter and verify the required transport, party, invoice, item, CPC, and other applicable declaration information.
7. Use SAVE DRAFT when the declaration must be saved without final submission. Verify the Draft Saved confirmation message.
8. Open the Summary page and review the declaration totals, importer details, shipment information, remarks, and declaration statement.
9. Select SUBMIT DECLARATION only after confirming that all required information is complete and correct.
10. The system validates the declaration before submission. If validation fails, correct the identified information and submit again.
11. After successful validation and submission, verify the confirmation notifications and confirm that the declaration appears in the IPT Declaration Management list with the appropriate status.

Appendix A – UI Reference

Step 1: Open the Dashboard

Open Tradenix and select Dashboard from the left navigation menu. The Dashboard displays declaration activity for Today, This Week, and This Month. Use the Declaration and Status filters when a filtered operational view is required.

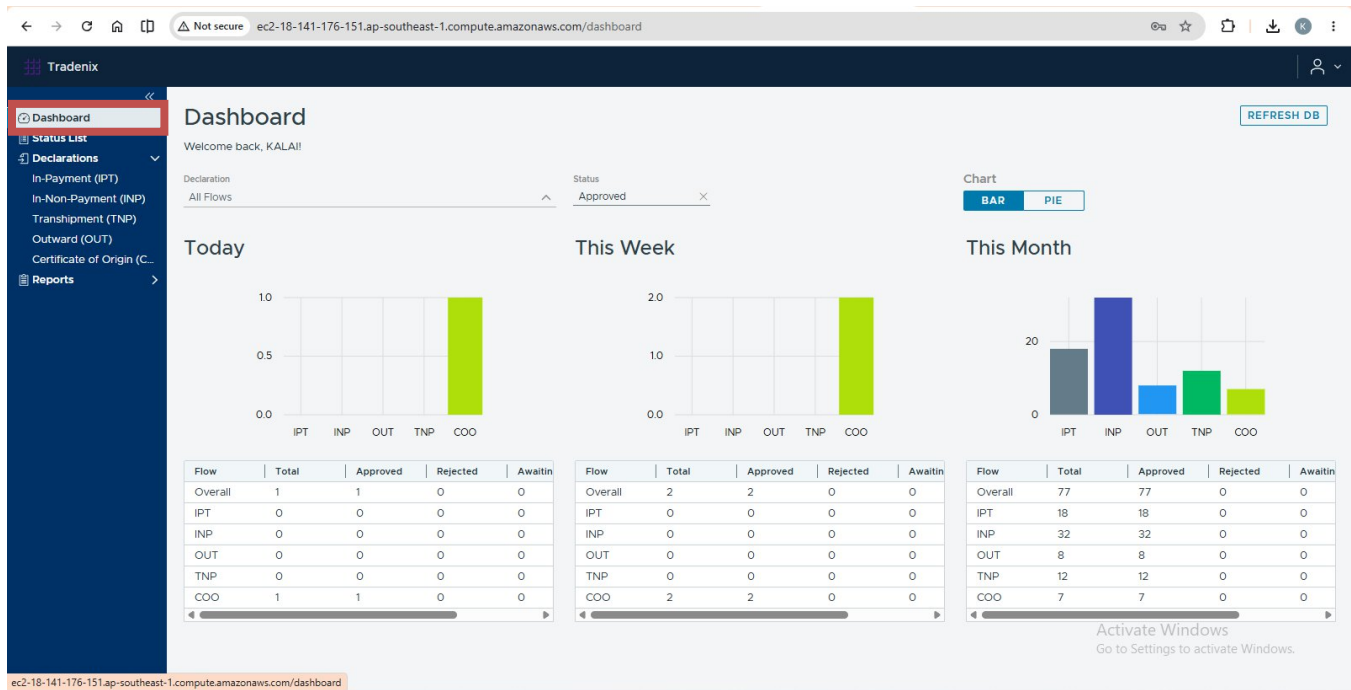

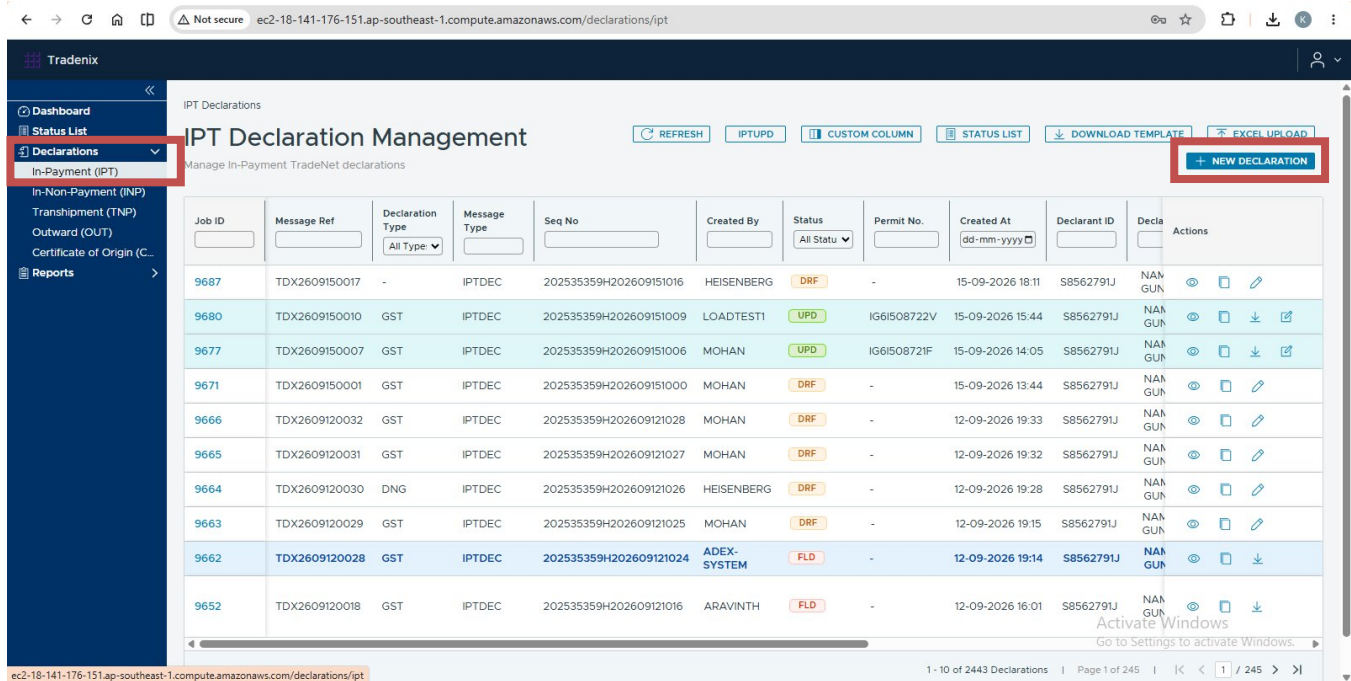

Figure 1. Dashboard

Step 2: Open IPT Declaration Management

From the left navigation menu, expand Declarations and select In-Payment (IPT). The IPT Declaration Management page displays existing IPT declarations, list filters, status information, row actions, and declaration-level controls. Select + NEW DECLARATION to begin a new IPT declaration.

The screenshot shows the Tradenix IPT Declaration Management interface. The left sidebar contains a navigation menu with 'Declarations' expanded, showing 'In-Payment (IPT)' as the selected option. The main content area is titled 'IPT Declaration Management' and includes a table of existing declarations. The table has columns for Job ID, Message Ref, Declaration Type, Message Type, Seq No, Created By, Status, Permit No., Created At, Declarant ID, and Actions. A '+ NEW DECLARATION' button is visible in the top right corner of the main area.

Figure 2. IPT Declaration Management - Add New Declaration

Step 3: Start the New IPT Declaration

The system opens the IPT declaration entry page at Shipment Info (S). Complete the mandatory declaration fields shown on the page, including Declaration Type, Cargo Type, Release Location, and Receipt Location, together with any other information required for the shipment.

Note: Select **NEXT** to proceed from Shipment Info to Transport Info. **PREVIOUS** is unavailable or not required on the first workflow tab.

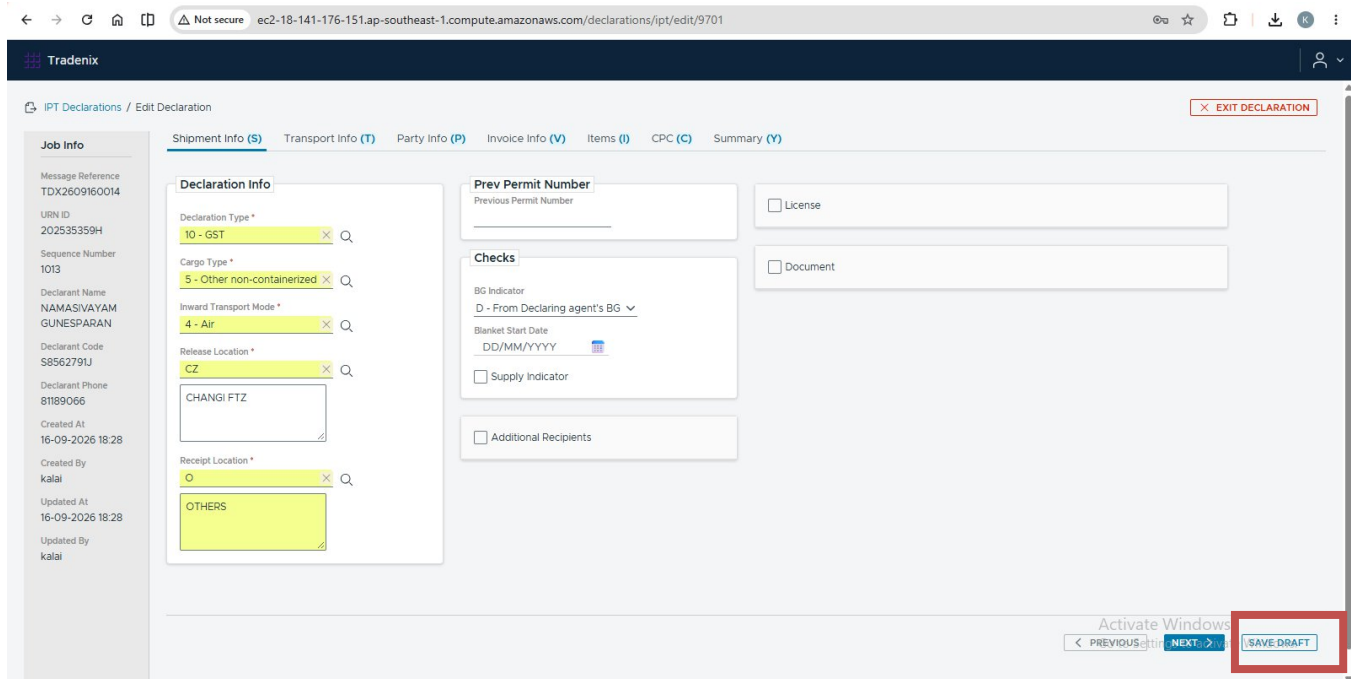

The screenshot displays the Tradenix IPT Declaration entry page. The browser address bar shows the URL: ec2-18-141-176-151.ap-southeast-1.compute.amazonaws.com/declarations/ipt/edit/9700. The page title is "Tradenix". The main navigation bar includes tabs: "Shipment Info (S)", "Transport Info (T)", "Party Info (P)", "Invoice Info (V)", "Items (I)", "CPC (C)", and "Summary (Y)". The "Shipment Info (S)" tab is selected and highlighted with a red box. The left sidebar shows "Job Info" with details: Message Reference TDX2609160013, URN ID 202535359H, Sequence Number 1012, Declarant Name NAMASIVAYAM GUNESPARAN, Declarant Code S8562791J, Declarant Phone 81189066, Created At 16-09-2026 18:27, Created By kalai, Updated At 16-09-2026 18:27, and Updated By kalai. The main content area is divided into sections: "Declaration Info" with fields for Declaration Type, Cargo Type, Release Location, and Receipt Location; "Prev Permit Number" with a Previous Permit Number field; "Checks" with fields for BG Indicator, Blanket Start Date, and Supply Indicator; and "Additional Recipients". The "NEXT" button is highlighted with a red box. The bottom right corner shows a "PREVIOUS" button, a "NEXT" button, and a "SAVE DRAFT" button. The "NEXT" button is highlighted with a red box. The bottom right corner also shows a "Go to Settings to activate Windows" message.

Figure 3. New IPT Declaration - Shipment Info

Step 4: Complete Shipment Information

Enter or select the required Shipment Info values. The page may contain additional controls such as Previous Permit Number, BG Indicator, Blanket Start Date, Supply Indicator, License, Document, and Additional Recipients, depending on the declaration scenario.

Note: Use NEXT to continue to Transport Info after reviewing the Shipment Info values. Use PREVIOUS on later tabs to return and correct these details if necessary.

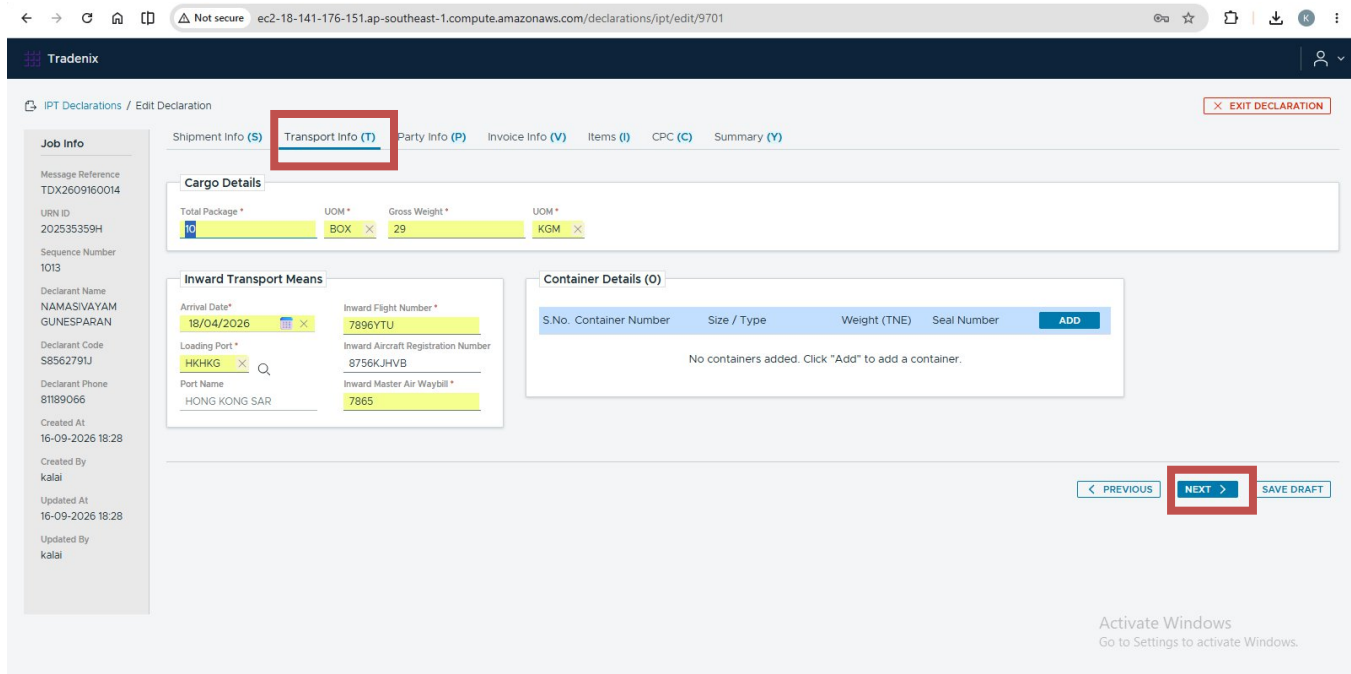

The screenshot displays the 'Edit Declaration' page in the Tradenix system. The browser address bar shows the URL: `ec2-18-141-176-151.ap-southeast-1.compute.amazonaws.com/declarations/ipt/edit/9701`. The page header includes the Tradenix logo and a user profile icon. The main content area is titled 'IPT Declarations / Edit Declaration' and features a red 'EXIT DECLARATION' button in the top right corner. Below the title, there are tabs for 'Shipment Info (S)', 'Transport Info (T)', 'Party Info (P)', 'Invoice Info (V)', 'Items (I)', 'CPC (C)', and 'Summary (Y)'. The 'Shipment Info' tab is active, showing a 'Declaration Info' section with fields for Declaration Type (10 - GST), Cargo Type (5 - Other non-containerized), Inward Transport Mode (4 - Air), Release Location (CZ), and Receipt Location (O). Other sections include 'Prev Permit Number' (Previous Permit Number), 'Checks' (BG Indicator: D - From Declaring agent's BG, Blanket Start Date: DD/MM/YYYY, Supply Indicator), and checkboxes for License, Document, and Additional Recipients. A sidebar on the left contains 'Job Info' details such as Message Reference (TDX2609160014), URN ID (202535359H), Sequence Number (1013), Declarant Name (NAMASIVAYAM GUNESPARAN), Declarant Code (S8562791J), Declarant Phone (91189066), Created At (16-09-2026 18:28), Created By (kalai), Updated At (16-09-2026 18:28), and Updated By (kalai). At the bottom right, there is an 'Activate Windows' watermark and a navigation bar with 'PREVIOUS', 'NEXT', and 'SAVE DRAFT' buttons. The 'NEXT' button is highlighted with a red box.

Figure 4. Completed Shipment Information

Step 5: Complete Transport Information

Select Transport Info (T) or use NEXT from Shipment Info. Enter cargo details such as Total Package, package UOM, Gross Weight, and weight UOM. Complete the applicable inward transport details, including arrival date, loading port, transport reference information, and container details when relevant.

Note: PREVIOUS returns to Shipment Info. NEXT proceeds to Party Info.

The screenshot shows the Tradenix IPT Declaration interface. The browser address bar indicates the URL: `ec2-18-141-176-151.ap-southeast-1.compute.amazonaws.com/declarations/ipt/edit/9701`. The page title is "Tradenix".

On the left, the "Job Info" sidebar displays the following details:

- Message Reference: TDX2609160014
- URN ID: 202535359H
- Sequence Number: 1013
- Declarant Name: NAMASIVAYAM GUNESPARAN
- Declarant Code: S8562791J
- Declarant Phone: 81189066
- Created At: 16-09-2026 18:28
- Created By: kalai
- Updated At: 16-09-2026 18:28
- Updated By: kalai

The main form area has a navigation bar with tabs: Shipment Info (S), **Transport Info (T)** (highlighted with a red box), Party Info (P), Invoice Info (V), Items (I), CPC (C), and Summary (Y). An "EXIT DECLARATION" button is in the top right.

The "Transport Info (T)" tab contains the following sections:

- Cargo Details:**
 - Total Package *: 10
 - UOM *: BOX
 - Gross Weight *: 29
 - UOM *: KGM
- Inward Transport Means:**
 - Arrival Date *: 18/04/2026
 - Inward Flight Number *: 7896YTU
 - Loading Port *: HKHKG
 - Inward Aircraft Registration Number: 8756KJHVB
 - Port Name: HONG KONG SAR
 - Inward Master Air Waybill *: 7865
- Container Details (0):**

S.No.	Container Number	Size / Type	Weight (TNE)	Seal Number	ADD
No containers added. Click "Add" to add a container.					

At the bottom right, there are three buttons: "PREVIOUS", **"NEXT >"** (highlighted with a red box), and "SAVE DRAFT".

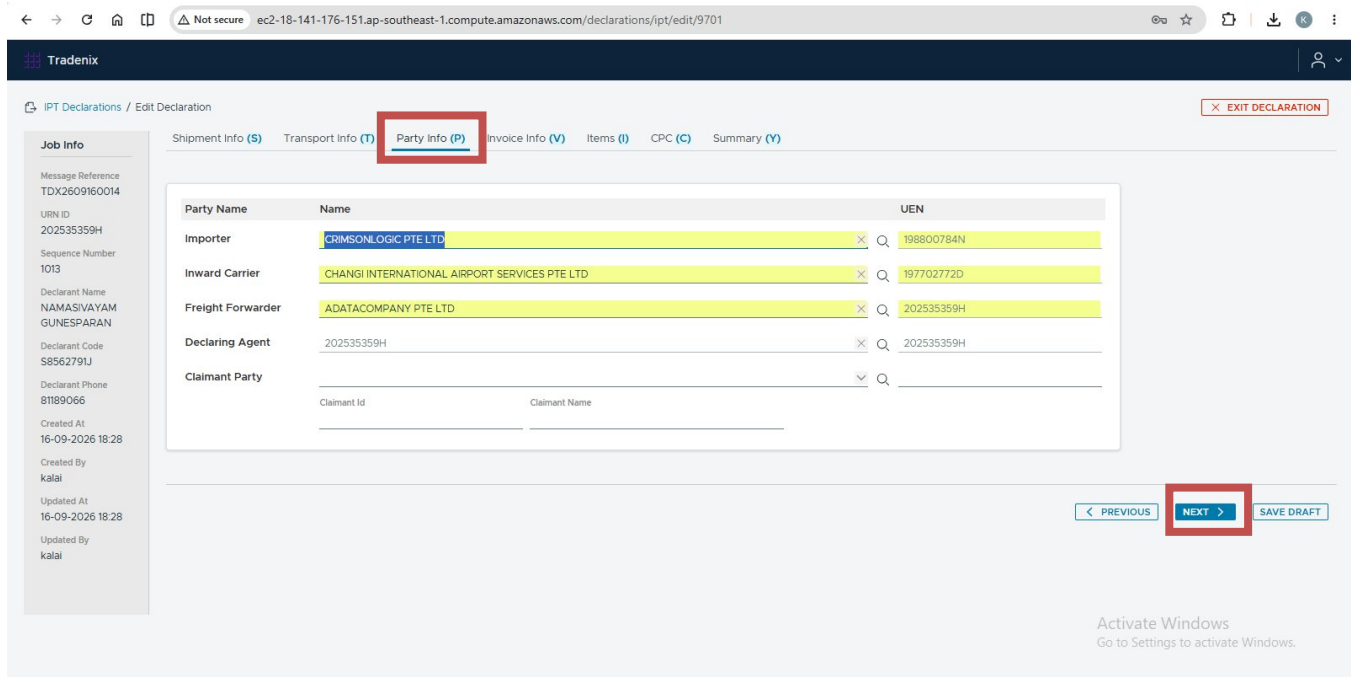

An "Activate Windows" watermark is visible at the bottom right of the page.

Figure 5. Transport Information

Step 6: Complete Party Information

Select Party Info (P) or use NEXT from Transport Info. Enter or verify the parties involved in the declaration, such as Importer, Inward Carrier, Freight Forwarder, Declaring Agent, and Claimant Party where applicable. Verify the corresponding UEN values before proceeding.

Note: PREVIOUS returns to Transport Info. NEXT proceeds to Invoice Info.

Figure 10. Declaration Summary

Step 11: Save the Declaration as Draft

Select SAVE DRAFT when the declaration must be saved without final submission. After a successful save, the system displays a Draft Saved notification confirming that the IPT declaration draft has been saved successfully.

Note: SAVE DRAFT stores the current declaration without final submission. The declaration can be opened again for further review or completion.

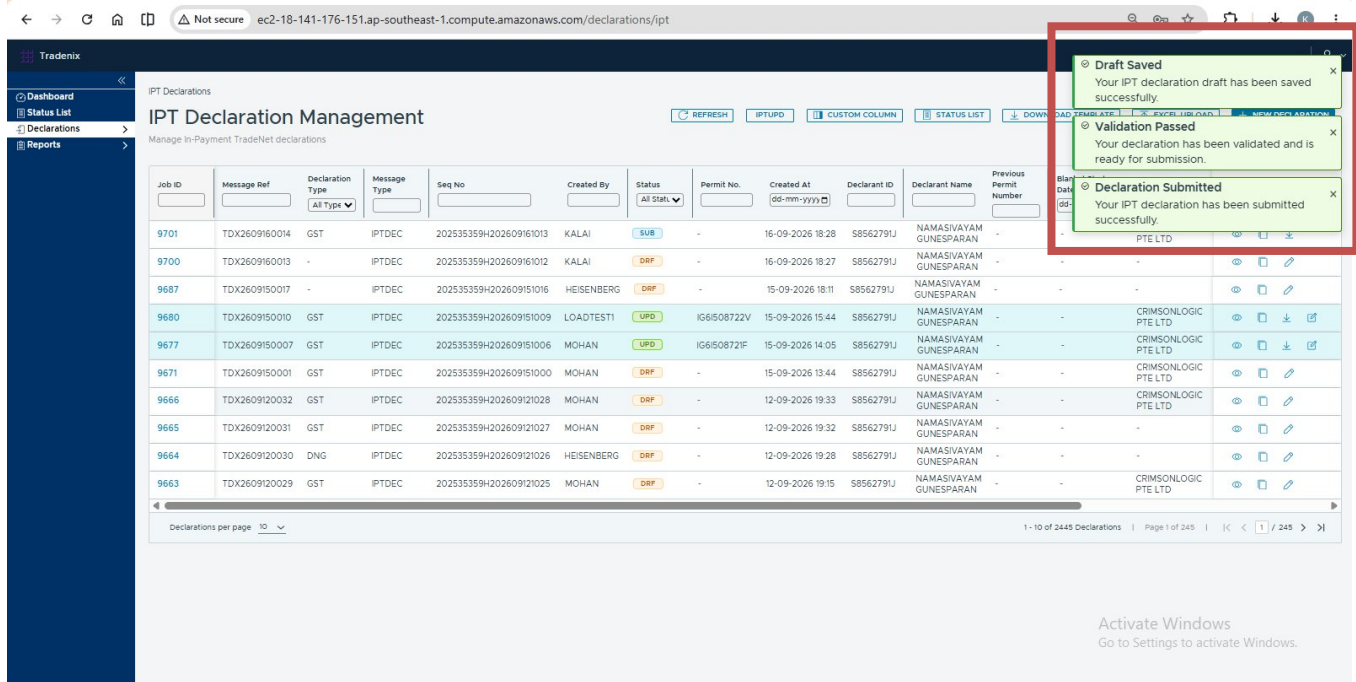

The screenshot shows the Tradenix IPT Declaration form. A green notification box in the top right corner states: "Draft Saved. Your IPT declaration draft has been saved successfully." The form includes sections for Job Info, Summary, Remarks, and Declaration Summary. The Summary section displays various financial and logistical details. The Remarks section has three text areas for Remarks, Internal Remarks, and Customer Remarks. The Declaration Summary section includes fields for Importer, Total Package, Total Gross Weight, Item HS City Sum, HAWB Number, Cross Reference ID, and Shipment ID. At the bottom, there is a checkbox for "I/We declare that all particulars in this application are true and correct." and buttons for "PREVIOUS", "NEXT", "SAVE DRAFT", and "SUBMIT DECLARATION".

Figure 11. Draft Saved Confirmation

Step 12: Validate and Submit the Declaration

When all required information is complete, select **SUBMIT DECLARATION** from the Summary page. The system validates the declaration before submission. After successful validation and submission, confirmation notifications are displayed and the IPT Declaration Management list shows the resulting declaration status.

Note: **SUBMIT DECLARATION** performs final validation and submission. **PREVIOUS** can be used before submission to revisit earlier information.

The screenshot displays the Tradenix IPT Declaration Management interface. On the right side, three green notification boxes are stacked, indicating successful actions: "Draft Saved", "Validation Passed", and "Declaration Submitted". The main area features a table of declarations with columns for Job ID, Message Ref, Declaration Type, Message Type, Seq No, Created By, Status, Permit No., Created At, Declarant ID, Declarant Name, and Previous Permit Number. The table lists several declarations, including those with status "SUB", "DRF", and "UPD".
